

## Exploring the Ashfall Fossil Beds Virtual Tour

Welcome to the Ashfall Fossil Beds Virtual Tour. This experience is designed to provide an engaging, educational, and entertaining tour of the Fossil Beds and main park areas. You will notice a variety of icons and images that allow you to interact with the scenes to either navigate back and forth or open hotspots for more information or close-up view of an area or animal or to learn more and test your knowledge. The section below provides a detail list and functionality of the main icons you will find in this tour.

While viewing this tour is best on a PC, you may also view it on mobile devices such as a phone or tablet. To have the best experience on these devices, make sure you are viewing in a horizontal format. In addition, you may use a VR headset for a Virtual Reality experience.

You can drag each 360° view to look in any direction. In each scene you'll see several icons like the ones below. Click or tap them to take a quiz or participate in a learning activity, view images, photo albums, videos, 3D models, websites, and PDFs, or to learn more:

The arrows and enter/exit icons will help you to navigate within a scene or from one scene to another. You can also switch locations by using the map in the lower right or the thumbnail views at the top to switch to any scene within the virtual tour:

You may also zoom in and out of areas in a variety of ways, by using the icons for the main view and map views. In addition, use of your input device (mouse, pointer, etc.) and scrolling in and out will allow you to use the zoom features. You are also able to close views from the main screen and map views with the close buttons below:
